KINGS MEADOWS HIGH SCHOOL

**YEARS**  
**11-12**

**Subject Offerings 2026**

# Foreword

At Kings Meadows High School we value supporting our young people in their educational journey to ensure they are known, safe, well and learning. It is important that students and their families are supported to remain engaged in education and training pathways that are meaningful and engaging for them as they explore possibilities and pursue their goals and aspirations. We are pleased to offer a senior secondary program at our great school.

Young people need to stay in education and training until they finish Year 12, receive a Certificate 3 in Vocational Education and Training (VET) or reach the minimum leaving age of 18, whichever comes first. At Kings Meadows High School, we have a purpose built senior secondary facility which provides a modern, comfortable, supportive and tailor-made learning environment for all students.

Whether you are a current Year 10 student at our school or from elsewhere, we would welcome the opportunity to discuss the opportunities that we offer and how we can best work with you and your family to support your learning pathway. This may look different for each individual and may involve full time study at our school, a shared enrolment with a college or other Registered Training Organisation (RTO), or part time study.

We look forward to welcoming you as part of our school community. Please contact us if you would like further information or wish to discuss how we can support you in the next stage of your educational journey.

Regards,

**Cary Stocks**

Principal

Students in Year 11/12 have the opportunity to study some or all of their subjects at Kings Meadows High School. In 2026, we will be offering both our Vocational Education and Training (VET) courses and a range of Tasmanian Assessment, Standards and Certification (TASC) courses for students wishing to complete years 11 and 12 at KMHS.

Please see information below for further details and contact the school if you have any questions re enrolment in our VET and/or TASC courses. Please note, these offerings are subject to change based on staffing and student interest in 2026.

## Our Facilities

We have a dedicated Year 11/12 space on the eastern boundary of our school-separate to our Year 7-10 classrooms. This purpose-built facility provides authentic, real world learning experiences in a modern and well-equipped environment with a study area, lockers, kitchenette and bathroom facilities. Year 11/12 students will also have access to free parking at the rear of the school. The facility is ideal if learning across school site or online (VLT).

## Virtual Learning @ Kings Meadows High School

Virtual Learning Tasmania enables Years 11 and 12 students in Tasmanian schools to undertake courses not available at their base school by studying them online. Years 11 and 12 students can enrol in VLT courses for up to 50% of their total study load, usually up to two courses. Please click on the following link to review the courses available: [Virtual Learning Tasmania 2026 Scope and Timetable](#).

## Full or shared enrolment at Kings Meadows High School?

Students may choose to enrol full time at Kings Meadows High School or through a shared enrolment with another school. If a student wants to attend full time at KMHS rather than travel across 2 campuses but wants to study a subject KMHS does not offer, the student may enrol in a variety of subjects through Virtual Learning Tasmania (VLT).

## Who can I contact to find out more?

Please contact any of the friendly Year 11/12 team members below for further information or to organise a tour or information session.
